

# Your Membership is Important

Membership in the Sask. Hospice Palliative Care Association not only shows your commitment to the concept of palliative care in our province, but it gives you membership in the Canadian Hospice Palliative Care Association and gives you voting privileges at the Annual General Meeting. This years meeting will be held at the Provincial Conference in Prince Albert in May, 2008. Your membership also gives you are reduced rate for provincial and national conferences, educational and networking opportunities and a subscription both Seasons and CHPCA quarterly newsletters.

Nurses who are interested may also register for the CHPCA Nurses Group which was established as a formal network to identify, address and advocate for recognition of hospice palliative care nursing and which includes the CHPCA web forum (List-serv) to address needs or issues for nurses working in palliative care.

**We encourage you to renew your membership now so that we can ensure you receive your benefits from now until December 2008. Please note:** it is more financially beneficial to your prov. association if you renew through SHPCA instead of through CHPCA.

# Saskatchewan Hospice Palliative Care Association Membership Application

Joint Membership in the Saskatchewan Hospice Palliative Care Association  
and the Canadian Hospice Palliative Care Association Inc.
